CLASS INFORMATION
Course Description

The Mentoring to Manhood Telecom Certification is an initiative designed to offer recent high school graduates an opportunity to learn a marketable skill ultimately culminating in employment. The M2M Telecom Certification will prepare young men for certification with the Electronic Technicians Association as a Certified Data Cabling Installer (DCI). Upon completion of the six-week training course, student will be given the opportunity to test for two certifications.

Certification 1: Certified Data Cabling Installer (DCI)
Certification 2: OSHA 10-Hour General Industry Card

Location

M2M Telecommunication classes will be held on Saturdays from 9am -1pm at the Kentland Community Center, 2411 Pinebrook Avenue in Landover, MD. Students are expected to arrive a minimum of 10 minutes prior to each class. Students are also encouraged to bring a lunch and snack for break times.

Course Fee $175
- Includes Instruction
- Materials
- Examination Fees
